

Reelcraft's stainless steel hose reels will increase the life of expensive chemical fluid transfer and wash down hoses. By properly storing hose when not in use you will also increase occupational safety by eliminating the tripping hazard of unstored hose and improve sanitation.

Stainless steel hose reels are ideal for food processing, pre-rinse, wash down, chemical transfer and industrial solvent handling. Also suitable for coastal, offshore and on-board ship in marine applications where the harsh environment of salt spray requires the use of stainless steel hose reels. Swivels include Viton® "O" rings.

### APPLICATIONS

- Restaurants
- Car Washes
- Laboratories
- Dairies
- Marinas
- Grocery Stores
- Photo Finishing
- Meat Packing Plants
- Chemical Plants
- Printing Industry
- Pharmaceutical
- Food Processing
- Ships

In Europe for all thread connections over 1/2" add the suffix number 70 to indicate BSPT threads - example D93000 OLSBW70.

- Full-flow stainless steel shaft and swivel assures maximum product delivery. Exception: 80,000 OMS
- Heavy duty brackets to eliminate bending due to angular hose pull
- Banded drive spring gives smooth automatic hose retrieval
- Multi-position guide arm permits wall, floor, ceiling, pit or truck mounting
- Nylon guide rollers reduce hose drag and abrasion
- Pos-i-latch will maintain the desired working length of hose. Mechanism assures a positive latch of the hose
- All reels are permanently factory lubricated
- 7000 Series offers weatherproof gasketed spring motor, assures maximum service life
- Vibration-proof self-locking fasteners assures assembly integrity

\*Series 80000 & D80000 stainless reels have an aluminum fluid path and may not be suitable for all applications.
